MIRA MESA HIGH

RUNNER-UP WINNER! - High School

CONGRATS!

STATS:

Waste Diversion: 53%
# of Students: 2,303
Trash Generated per Student/Month: 2.74 cubic feet

CAMPUS SUSTAINABILITY

Mira Mesa High Air Force JROTC and Custodial Team are very involved in recycling and sustainability on campus.

- All classrooms have recycling and trash containers. Students and staff are encouraged to recycle through signage and messaging.
- The Quad, where students eat lunch, has multiple recycling bins throughout, again with signage and messaging that encourages participation.

SHOUT OUTS!

MMHS SUSTAINABILITY LEADERS:

Air Force JROTC; Dustin Lanigan, Plant Operations Supervisor; Custodial Team

CAMPUS SUSTAINABILITY

(continued from page 1):

- The Custodial Team are key players in collecting all recyclables and making sure they get to the large recycling dumpsters on campus.
- The AF JROTC cadet staff coordinates several campus clean-ups through the year. The cadet volunteers rake/bag pine needles, leaves, and twigs, etc., and pick up trash around lunch pavilions and main offices.
- During the campus-wide clean-up teams are scattered all around campus to include the football stadium, all sports fields, pine tree areas, and main campus. Cadets collect recyclables and make sure they get to the recycling bins on campus.
- This school year, 97 cadets contributed 258 hours to campus beautification, sustainability, and recycling efforts.
- AF JROTC Cadets also participate in local beach clean-ups and support environmental education initiatives.
- The custodial team ensures that students and staff are aware of the recycling efforts on campus and encourages participation during daily interactions.
